

PHP / Drupal 7 Developer

WaveCloud is a dynamic new startup company that is developing an innovative new products for the Internet community. Be part of a team that will change the way that people socialize, transact and share on the web!

Do you think you have what it takes?

WaveCloud seeks creative and motivated individuals, in the greater Denver area, to develop a Flagship product using **PHP and Drupal 7**.

WaveCloud

The qualified individual can expect to contribute to the creation and evolution of a comprehensive CMS system using Drupal 7, PHP, JavaScript, JQuery on a LAMP stack. In a team-based, Agile environment, you will:

- Evaluate and design solutions to User Requirements, received verbally and in writing
- Construct a Solution and review it with your Lead
- Test your solution against various scenarios
- Deploy your solution, and see it act as a positive force for Social change

You and your team will work together from our offices in the Denver Technical Center. Some remote work will be supported. Expect to learn from others, and share your knowledge to benefit the team.

Required Skill Set:

- 2 years of experience delivering a full implementation solution using Drupal 7, from the Requirements Gathering phase through Deployment. Experience that is limited to enhancements and modifications is NOT sufficient
- Devising and implementing solutions using Drupal Hooks, Views and Custom Content types
- Integrating standard and custom Drupal themes with a solution
- Constructing custom Drupal modules
- Evaluating the candidacy of third-party Drupal modules; leveraging robust Modules in the solution
- An advanced grasp of PHP, JQuery and JavaScript
- A working knowledge of Relational database modeling, SQL statements and database objects
- Understanding how to develop a secure and efficient solution
- Working experience in a multi-developer team, where team members concurrently develop, and check in their changes via a version control system (e.g. Subversion, GIT, CVS)

Candidates should possess:

- A commitment and desire to work for positive social change
- Good spoken and written communication skills
- The desire to collaborate with others to achieve shared goals

Familiarity with the following is a plus!

- Social media
- SOAP, REST, AJAX, XML, JSON, HTML5

WaveCloud is accepting applications from candidates willing to contract, contract-to-hire or join the company in a full-time capacity. At WaveCloud, we offer competitive compensation; Full time employees receive a full benefits package including medical, dental and vision, a 401(k) with matching contributions, 2 weeks of PTO and 10 paid holidays per year.
