

System Administrator

WaveCloud is a dynamic new startup company that is developing an innovative new product for the Internet community. Be part of a team that will change the way that people socialize, transact and share on the web!

Do you think you have what it takes?

WaveCloud seeks a creative and methodical individual to administer LAMP-based Drupal 7 systems.

WaveCloud

You will work with the WaveCloud CTO, the IT architect and other team members to build, launch, maintain and evolve web platforms for our product. Through planning and troubleshooting, you and your co-workers will work to ensure that the platforms meet the short- and long-term needs of speed, security, availability and reliability. Identifying bottlenecks and suggesting improvements and modifications at the system or service level are essential.

You will collaborate with the team from within our offices in the Denver Technical Center. WaveCloud can support some remote work.

Required Skill Set:

- 3+ years administering the LAMP components of a Drupal 6 or Drupal 7 system (CentOS, Nginx)
- Good troubleshooting skills; Able to analyze logs and perform root-cause analysis
- Experience creating processes and standards to maintain the health of the IT infrastructure proactively
- Good knowledge of Linux scripting
- Understanding of concepts and technologies to support the security at the stack's different layers
- Server & Site performance (reverse proxy caching, memcache, Drupal caching, MySQL and Nginx tuning, PHP profiling)
- Experience implementing automated backup strategies

Experience with the following is a plus:

- Comfort administering MySQL servers
- Experience implementing automated migration strategies

Candidates should possess:

- A commitment and desire to work for positive social change
- Good spoken and written communication skills
- The desire to collaborate with others to achieve shared goals

WaveCloud is accepting applications from candidates willing to contract, contract-to-hire or join the company in a full-time capacity. At WaveCloud, we offer competitive compensation; Full time employees receive a full benefits package including medical, dental and vision, a 401(k) with matching contributions, 2 weeks of PTO and 10 paid holidays per year.
