The successful candidates will have the following:-

### **Core Experience**

- Drupal 6
- PHP 5
- MySQL
- Ajax, CSS, HTML
- Social Media
- Ubuntu/Linux server admin

### **Desirable Experience**

- Multimedia / streaming / CDN
- Mobile Phone platform development
- Ubuntu/Linux server admin
- Subversion, CVS
- Knowledge or experience with Web Services, especially Soap
- Tertiary Qualifications
- Experience with project and document management suites such as Jira, and Confluence
- Strong Bible knowledge & understanding of its principles

### **Personal Qualities**

- A positive and friendly attitude
- A passion for web development and coding
- A proven ability to meet deadlines
- Good communication skills
- Ability to work well in a team
