OUTSTANDING ISSUES:

- **ERRORS:**

- a. **On Book Copy [Contracts]:**

- An AJAX HTTP error occurred. HTTP Result Code: 500 Debugging information follows.
Path: /batch?render=overlay&id=273&op=do StatusText: Internal Server Error
ResponseText: PDOException: SQLSTATE[23000]: Integrity constraint violation: 1048 Column 'link_title' cannot be null: INSERT INTO {menu_links}

- b. **On Book Create [Contract]:**

- EntityMalformedException: Missing bundle property on entity of type node. in entity_extract_ids() (line 7766 of drupal/includes/common.inc).

- c. **On Visit node 586 (Contract Data Sheet):**

- Notice: Undefined offset: 1 in og_membership_from_group_and_user_context() (line 28 of [./]all/modules/og/plugins/relationships/og_membership_from_group_and_user.inc). - could relate to <https://drupal.org/node/1503338>

- **CHANGES:**

- a. Views Calc Display Changes: [See Here](#)
 - b. On Save Contract, apply contract Group Audience to Data Sheet so protected from public view.
 - c. Copy Engagement button - ONLY on engagement nodes in catalog view - should add an engagement to a contract (selected from list) then redirect to contract.
 - d. Need Book Delete module button to say Engagement or Contract, depending on context.
 - e. Automatically add Goals and Outcomes to new Engagements, like Datasheets are to Contracts.
 - f. Contextual Link "Add Memo Page" should add a Memo Page content type to viewed contract.
 - g. Auto apply New Groups and Subgroups to Nodes from Viewed Context if Context is a Group or Subgroup
 - h. Copied Engagements into Contracts Lose Child Page Order; they should retain.
 - i. Enable Bulk Update of Service Item Rates
 - j. Performance Optimization on Database / Modules for faster loads
 - k. Identify Form Alter UI method to simplify forms
