

# Drupal 8 Developer Immersion + Certification prep Flipped Training

## Learn professional Drupal 8 development and get certified with the Drupal experts

Are you eager to become proficient in using Drupal 8 to power ambitious projects? Do you want to build your team's skills and confidence to rapidly become Acquia Certified Developers in Drupal 8? This comprehensive 8-week course covers all areas of Drupal 8. Students build a fully functional Drupal 8 site from design to production; they learn best practices in Drupal 8 site-building, theme development, and module development.

This course also specifically prepares students to excel at the [Acquia Certified Developer - Drupal 8 Exam](#). *The cost of the exam is included in the course registration fee for each student.*

## Experience learning in a new way

This innovative course is a 'flipped' virtual training that combines self-paced learning with weekly live virtual classroom sessions led by an expert Drupal instructor.

Each student does weekly self-paced learning and project assignments on their own schedule, and attend a 90-minute instructor-led virtual class session. Each session is a workshop to ask questions, test their skills in applying knowledge, and interact with one another in hands-on activities.

Learning materials are provided through a collaborative online environment which enables instructor-to-student and peer-to-peer discussions throughout the week.

This is a project-based course and each student must build their own Drupal 8 site.

## The Course Includes

- Eight weekly 90-minute virtual class sessions
- Access to self-paced study materials to learn each week's Drupal topics
- Access to collaborative/social learning environment for

## Key Features

- Learn Drupal 8 development in-depth in 8 weeks
- Prepare for the [Acquia Certified Developer - Drupal 8 Exam](#)
- 100% remote delivery, flexible learning schedule
- Innovative 'Flipped' training – combines self-paced learning with weekly hands-on collaborative class sessions
- Public and private trainings available
- > 95% exam pass rate

- Session 7: Advanced Drupal 8 Theming
- Session 8: Project presentations & wrap-up

## Entrance requirements

This course is not suitable for Drupal beginners. In general, students should have medium to high proficiency with Drupal 7, some familiarity with Drupal 8, or both. To ensure success, we require one of the following as a prerequisite.

- You must have an Acquia Drupal Certification already (D7 or D8) OR
- You have a demonstrable history of at least 6 months of Drupal experience.

## Delivery Options & Pricing

### Public training

Several public schedule sessions each year, visit [Acquia Academy](#) for upcoming sessions, pricing, and online registration.

### Private training

We can arrange private sections of this flipped course in certain cases for class sizes of 8-15. Contact your Acquia Account Manager, Partner Manager, or email [Andy Laken](#), Director, Learning Services.

*"Class was great! I loved getting such a broad education while still being able to work around my busy schedule."*

— Jason, June 2017

*"...very well structured learning program... huge amount of well considered Drupal material .... Great student engagement and really enjoyed the mixed sessions with peers and fantastic motivation and enthusiasm from the instructor.... Highly recommended for newbies and experienced drupalists."*

— Graham, September 2017
