

# NodeSquirrel

Cloud Backup **FOR** Drupal **by the makers of Backup & Migrate**

## What is it?

Easily back up all your Drupal sites to the cloud. Back up your website's database, files, and code as often as you'd like. **Control your backups. Recover immediately.**

## Hosts have backups. Isn't that enough?

no!

Host backups can fail, and accessing them can be time consuming. With NodeSquirrel, retrieving backups is quick and easy. **Because you never want to wait when there's a problem.**

## Built into Backup and Migrate

NodeSquirrel is baked right into the extremely popular module, Backup and Migrate. The tools are massively tested, (over 250,000 installs) **which gives you total peace of mind.**

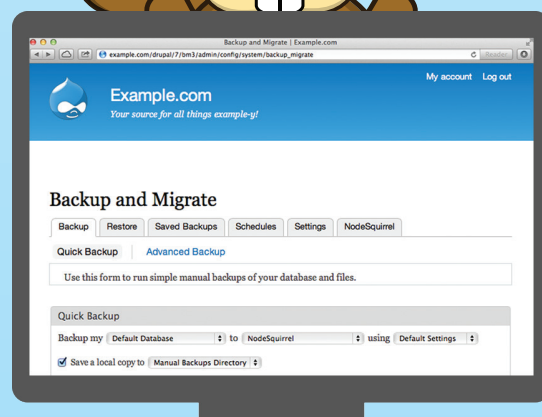

## Easy to set up

It only takes a few minutes to set up most Drupal sites.

## Affordable

Plans start at \$9/ month.

**Don't wait, try today!**

**You're in Control.**  
(Not your host).

- ✓ Restore your site with 1 click.
- ✓ No need to contact tech support for access.
- ✓ Set your own backup schedule.
- ✓ Run frequent backups. Never lose work.
