## Logistics

Lima has an excellent international airport. It's located exactly in the center of Latin America and has good connections with North America and Europe.

There are no Visa requirements for most people in Latin America or the world.

## Cultural Activities

Peru offers many cultural and touristic attractions, including the world famous Machu Picchu, near Cusco.

Cultural activities are planned to happen before, during, and after the event, so the whole family is encouraged to come.

## Local Seasoning

Picchu means Summit in quechua (native indigenous language), so DrupalPicchu means DrupalSummit.

This and other details are the local seasoning that organizers are adding to the event to warmly receive our guests.

## Global Savoring

DrupalPicchu will be a rich mix of global flavors, much like the Peruvian cuisine.

People from all over the world are invited to climb the mountains of Machu Picchu. Let's celebrate the cultural diversity of our community at the very top!
